Д - с осушителем воздуха холодильного (рефрижераторного) типа , фильтром 3 мкм и байпасом.

ДФ - с осушителем воздуха холодильного (рефрижераторного) типа

А - открытого типа, без шумопоглощающего корпуса

BC - с частотно-регулируемым приводом

К - со встроенным блоком рекуперации тепловой энергии для нагрева воды (опция возможна на компрессорах с прямым приводом), цена +10% к базовой версии

* 1 – исполнение на колесах;

2 – исполнение на виброопорах.

По специальному заказу:

- возможно изготовление компрессоров на давление: 5-15 атм.,

- возможно изготовление компрессоров BK5 (BK5E), BK7(BK7E), BK10(BK10E) на ресивере 500 литров без осушителя, цена + 100 Евро к цене аналогичных моделей на ресивере 270 литров.
